Profile

Front-End Developer with a strong foundation in **HTML, CSS, JavaScript**, and **React.js**, currently learning **backend development**. Passionate about creating responsive, user-friendly interfaces and solving real-world problems through code. Built small projects that reflect creativity, initiative, and a commitment to growth. Seeking **internship** or **entry-level roles** to apply skills, gain experience, and grow into a full-stack developer.

Skills

Languages: HTML5, CSS3, JavaScript, Python(beginner)

Frameworks/Libraries: jQuery, Bootstrap, Express.js, React.js, EJS

Tools: Node.js, Git/GitHub, Postman, REST API

Projects

Simon game [🔗](#)

- Developed a memory-based game using **HTML, CSS**, and **JavaScript**
- Generates a random sequence of colors that the player must repeat in order
- Each level increases in difficulty by adding one more color to the pattern
- Includes **interactive sound effects** and **visual feedback** for a better user experience
- Designed with a **colorful UI** and smooth animations to make the game engaging and fun

Password Generator [🔗](#)

- Built a dynamic password generator using **React.js, HTML**, and **CSS**.
- Enabled users to **customize the password length** and **toggle options** for **uppercase, lowercase, numbers, and symbols**.
- Used React hooks like **"useState"** to manage the real-time updates
- I got a better understanding of **component-based architecture** and **conditional rendering**.
- I learned how to **show or hide parts of the UI** depending on the user's actions.

To Do List [🔗](#)

- Built a dynamic to-do list application using **ReactJS**.
- Enabled users to **add, delete**, and **reorder** tasks using up/down buttons.
- Implemented **input validation** to prevent empty or whitespace-only entries.
- Styled the UI using **CSS**, ensuring a clean and **responsive layout with media** queries.

Certificates

Web Development [🔗](#)

I completed a "web development" course on SoloLearn that covered HTML, CSS, and JavaScript.

Python (beginner) [🔗](#)

I finished the "Introduction to Python" course on SoloLearn, which covered Python basics.

Education

The American College.

Bachelor of Commerce with Computer Application

Graduate of B.Com with Computer Application degree with a **CGPA of 8.05/10** (up to 5th semester).

07/2022 – 05/2025

Madurai, India
